Fahaheel, Kuwait

## About Me

Results-driven Civil Engineer with 9+ years of experience in precast construction, structural engineering, and CAD design. Proficient in AutoCAD, Staad Pro, Revit, IDAT, and ETABS, with expertise in structural analysis, project planning, and quality control. Skilled in managing precast production, designing structural elements, and ensuring compliance with industry standards. Recognized for strong leadership, problem-solving, and communication skills, with a proven track record of efficient project execution and cross-functional collaboration. Seeking an opportunity to leverage technical expertise and project management skills in a dynamic, innovation-driven organization.

## Expertise

- AutoCAD, Staad Pro, Revit, IDAT, ETABS
- MS Office, Adobe Photoshop, Adobe Illustrator, Sketch up, Corel Draw.
- Productivity Optimization.
- Human Capital Optimization
- Conflict Resolution
- Executive Leadership Abilities
- Analytical thinking
- Effective Communication Proficiency
- Growth Mindset and Intellectual Curiosity
- Rapid Comprehension and Skill Acquisition
- Commitment to Professional Development

## Education

**Bachelor of Technology (B.Tech) in Civil Engineering (Honors)**

Rajasthan Technical University, Jaipur, 2015  
Aggregate - 78.81%

## Language

- Hindi (native)
- English (full professional proficiency)
- Arabic (full professional proficiency)

## Interests

Designing, Sketching, Playing  
Badminton and Chess

## Work Experience

### Production Engineer | Real Estate Construction & Fabrication Co. (RECAFCO)

Mina Abdullah, Kuwait | 10/2023 - Present

- Successfully led and managed multiple precast construction projects, ensuring timely completion while upholding the highest quality standards.
- Ensured strict adherence to approved construction drawings, contract documents, specifications, and applicable precast element standards throughout the project lifecycle.
- Oversaw the production and installation of precast elements, efficiently coordinating with suppliers and subcontractors to streamline operations.
- Prepared and submitted Inspection Requests (IR) in alignment with approved method statements, inspection and test plans, and final engineering approvals.
- Implemented rigorous quality control measures by monitoring compliance with approved method statements and inspection plans, ensuring seamless integration with client and engineering requirements.
- Collaborated closely with the QA/QC Manager to oversee all quality-related activities, facilitating effective communication with the Site Construction Manager regarding inspection requests.
- Conducted thorough verification of shop drawings, Bill of Materials (BOM), and contract documents to ensure full compliance with project specifications and Kuwait Construction Standards (QCS).
- Performed daily site inspections and compiled comprehensive monthly reports outlining project status, non-conformities, preventive actions, quality control improvements, and strategies to optimize precast element production.

### CAD Designer | Mohammed Taqi

Shuwaikh, Kuwait | 12/2018 - 9/2023

- Led front-end project design by consulting with clients to develop bespoke, high-impact solutions tailored to their unique requirements.
- Successfully delivered a diverse portfolio of designs, aligning with project specifications and client expectations.
- Conducted thorough resource analysis for each project, optimizing efficiency and ensuring seamless production outcomes.
- Strategically scheduled and managed multiple projects, consistently meeting deadlines—even during peak seasons.

### Structural Design Engineer | Beniwal Construction Company Pvt. Ltd.

Jodhpur, India | 8/2015 - 10/2017

- Designed beams, columns, stair systems, floors, and foundations for commercial buildings as per IS Codes
- Conducted structural surveys to identify deterioration, analyzed structural drawings, and recommended repairs to defective areas.
- Created detailed sketches, shop drawings, and technical documents for structural components.
- Reviewed shop drawings, conducted site visits, and performed inspections

### Structural Engineer (Internship) | SLABS

Pune, India | 6/2014 - 7/2015

- Designed various structural elements (columns, beams, slabs) for the Varundavanam project.
- Developed structural member packages in Excel and provided corresponding drawings.

## Achievements

- Qualified GATE
- Awarded for the Best project on Traffic Density Management.
